President's Report APR / AUG. 2025

Well my Model A was another year older this month. It always impresses people when they ask how old it is and I have to say I love driving my ninety five year old car, but. I'm another year older too and I am not impressed. I suppose I should be glad I made it this far but I never expected to get here so fast.

Christmas is now just round the corner and we have begun to organise things like the party and our grand end of year raffle. More details on that and other news to come in the October newsletter. Don't forget our over the pit and machinery day will be this month. It will "NOT" be on our regular run day because the hall was booked so it will be a week later on Sunday 31st. 9.00 to 9.30 start and ladies are asked if they could bring along something for the morning tea table. BBQ lunch supplied and a good chance to run your car over the pit for maintenance check. Always a good day. Could you please call Les Ph: - 0418 723 187 or Lindsay Ph: - 0413 946 268 for catering.

Wednesday Warriors, run this month will be to Norfolk Park at Trafalgar St Manly. Drive past the Boat House fish shop to the end. I have been told it is Brisbane Show day holiday so if we arrive the place is packed out we have a plan B. BYO lunch.

I would like to introduce you to Russell and Susan Nieass from Marian North Qld. Model T owners for many years. They attended the National Meet in Maryborough and got the Model A bug that resulted them buying a 28 Roadster at the meet. Unfortunately on their trip home the old engine went into retirement which resulted in a rebuild. Pleased to report their car is now home but as we all know Model A'S have some surprises hidden away just waiting to jump out and bite you. This came in the form of the new engine having a severe oil leak out the rear main. (Sound familiar) Russell rang and we discussed it and off came the sump. On went the sump. Off went the sump. On went the sump again. Doing this in car is a bit tricky but Russell had a brain wave. What if he used a few dobs of super glue to hold the sump gasket in place? What a cracker idea. So, lying under the car, squeezing glue and all going to plan when oops the tube bursts and down comes the contents of the tube all over Russell's moustache and a couple of front teeth. He assured me under those circumstances no matter how fast you come out from under that car you still spend the next half hour with a good pair of scissors removing a very stiff and hard to cut moustache. Welcome to Model A world you two.

While on the subject, a few other blokes spending some horizontal time under their cars are Nev Pearce with timing issues, Mark McDonald with an interesting noise from around the front timing cover, Craig O'Brien with his carby annoying him and Les Dunstan replacing a water pump. Good luck with your diagnostics and repairs boy's.

President's Report APR / AUG. 2025

Parts wanted:-

Ian Gutrey from Herberton is looking for a pair of 1930 Fordor front doors. Ring Ian on Ph:-07 4096 4177.

Phil and Marilyn Neil from Yungaburra are chasing a thirties style tow truck hand operated crane winch. Ph: - 0409 048 777.

Dave Slater is after a 1930-31 hand brake cross shaft. Ph: - 0412 593 595.

Out and about.

I have to say a big thank you to the Qld Model T club for hosting this year's Henry's Birthday outing. After leaving Laidley for a short drive to Lake Dyer and a cutting of Henry's Birthday cake the run had something for everyone. A few steep pinches and descents along winding bitumen roads through fields of cattle grazing or lush fields of farmland. We had a few patches of dirt and a couple of minor flooded stretches but all made it through to our destination at the Mulgowie Pub for lunch. Thanks to Tony Howard from the Model T Club of Qld for planning the day and an excellent vintage car run.

Laurie Kyte was merrily tootling along in his 1933 Ford and caravan in the middle of nowhere recently when he came across a good size brown snake and decided to pull up for a photo shoot and was pleasantly surprised when fellow club members Leanne and Peter Kingdom appeared out of the dust and of course seeing the 32 Ford they decided to say hi. A surprise to both parties and a roadside yarn followed. Small world hey.

That's about it so till next time. Happy Trails to you all.

Lindsay

Henry's Birthday with the Model T Club

Model T Club QLD. organized the **Henry's Birthday Run** on 27th July 2025.

Met at the Laidley Pioneer Village in Pioneer Street around 9am for a 9.15/30 short drive to Lake Dyer for morning tea and cake cutting about 10am. Tea & Coffee was available

About 11am we drove to Mulgowie Pub for lunch at your own cost at \$12.30

PM made our own way home.

Assembly at Pioneer Village

On our way to Lake Dyer. There was a massive storm the night before, consequently heaps of water in the paddocks and roads.

Morning tea at Lake Dyer – Henry's Birthday cake

Tony and Lindsay cutting the Birthday cake at Lake Dyer.

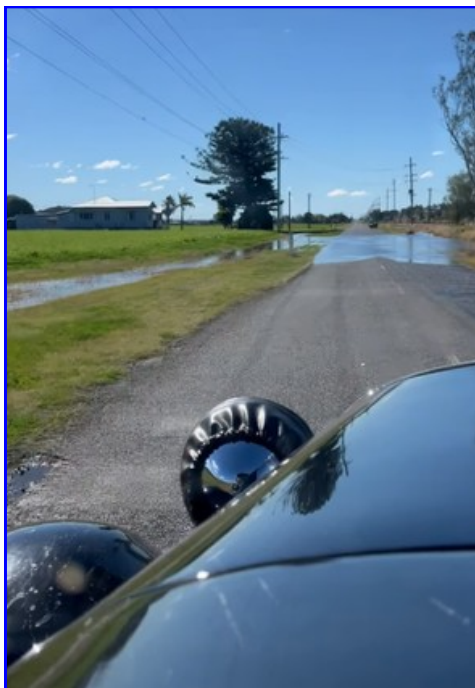

At Lake Dyer

Assembly of some Model A's at Lake Dyer

Henry's Birthday with the Model T Club

After travelling along some country roads we had lunch at Mulgowie Pub

Henry's Birthday with the Model T Club

After lunch some of us met at Paul's home to inspect his 'Man Shed'.
Paul and Kev celebrated their birthdays today.(HAPPY Birthday to Both, ED)

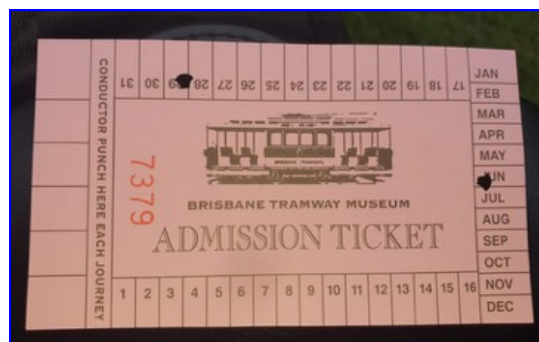

Certainly was a great run. Thanks to Tony in Model T club.

June Run to the Tramway Museum Brisbane.

A nostalgic run to the Tramway Museum for our June run was a trip down memory lane for many of us. Meeting at the club rooms for morning tea and a yarn and a nice sunny day was a good start and on arriving at the museum gates at Ferny Grove we were surprised to be greeted by a tram conductor in full uniform and an invitation to drive inside the museum grounds, park our Model A's beside a line up of trams and set up the BBQ trailer.

A wander round the grounds and through the Museum followed by a tasty barby lunch prepared by Chef Darryl with a few helping hands. (See pics) Followed by the usual lazing under a shady tree and discussing our favourite subject, the wonder, workings and worries of owning a Model A Ford.

Then it was all aboard for a run round the circuit and a trip back in time. We rode four different trams, each one from a different era. Starting with the last model before they were retired from our Brisbane streets. It was lavishly fitted out with pull up windows, closed in sides and foam rubber vinal covered seats. Followed by three others each older and more basic till the last completely open, hop on and hang on model. I think everyone had ridden on at least one of these going to school and had a tale to tell.

Tramway Museum Brisbane.

Smoko and B.B.Q. Lunch

FORD's 100 years in Australia:

You will remember that in August last year there was an article covering the history of the Ford Motor Company in America from 1903. Now with Ford celebrating its 100th year in Australia in this year of 2025, I thought it might interest some of us, especially me, to see what Mr. Wikipedia had to say about Ford's time in the land down under.

Although at least one Ford arrived in Australia in 1904, just a year after the formation of the Ford Motor Company, the local story of Ford began in earnest in October 1909 when R.J. Durance and his wife Ivy came from Canada to Port Melbourne to open an Australian branch. They brought fully assembled Fords in and demonstrated them to the towns of the Australian bush with great effectiveness. Durance asserted: "Ford agencies were appointed anywhere smoke came out of a chimney".

However, Ford distributors were gouging their own sub-dealers as well as customers and in 1923 Ford Canada sent executives Hubert French and Mel Brooks across to investigate. On December 23, French wrote recommending the establishment of manufacturing plant in Tasmania but later settled on Geelong. By the time French was ready to leave Australia, General Motors' local boss Ed Riley had pegged the price of a Chevrolet at £235, almost £100 more than a Ford. French returned in early 1925 as managing director, acquired a disused wool shed in Geelong and the first Model T came off the makeshift assembly line on July 25. Similar arrangements applied in Sydney (ex-freezing works) and Hobart (ex-brewery).

A total of 12,679 cars and trucks were assembled in 1925. The following year saw plants in Adelaide and Brisbane built.

But despite these developments, Ford's market share fell from 69 per cent in January 1925 to 34.7 per cent by year's end, reflecting not just the demise of the corrupt old distribution system but the outdatedness of the 'T'.

Timeline:

- **1925:** The first Model T was manufactured in Geelong.
- **1928:** Model A production begins.
- **1934:** The world's first coupe utility was released.
- **1960:** The first Falcon sold in Australia was the XK series, introduced in September.

The desperately needed 'New Job' Model A was announced on May 26 1927, and Australian production began 14 months later.

Between 1928 and 1932, 32,387 Model A Fords were made but the best market penetration was about 20 per cent in the first year compared with 34 per cent for GM. In 1930 assembly had begun in a warehouse in Fremantle. But the Great Depression began to hit hard. On August 25, 1932 the Ford V8 was launched in Australia and the following July also saw the introduction of the economical 8hp (RAC) English Model Y.

During 1933, a Geelong woman famously wrote to Ford wondering why the company couldn't produce a vehicle that would take her husband and herself to church on Sunday and the pigs to the market on Monday. Designer Lew Bandt drew the world's first coupe utility and it went into production in 1934.

kits provided by Ford of Canada. Of the many models that followed, the best known was the Falcon produced from 1972 to 2016, originally a US model introduced in Australia in 1960 and eventually adapted to Australian requirements and road conditions.

FORD's 100 years in Australia:

Ford Motor Company of Australia Limited (known by its trading name **Ford Australia**) is the

Australian subsidiary of United States-based automaker Ford Motor Company. It was founded in 1925 as an Australian outpost of Ford Motor Company of Canada. At that time, Ford Canada was a separate company from Ford in the US. Henry Ford had granted the manufacturing rights of Ford motor vehicles in the British Empire (later the Commonwealth) to Canadian investors.

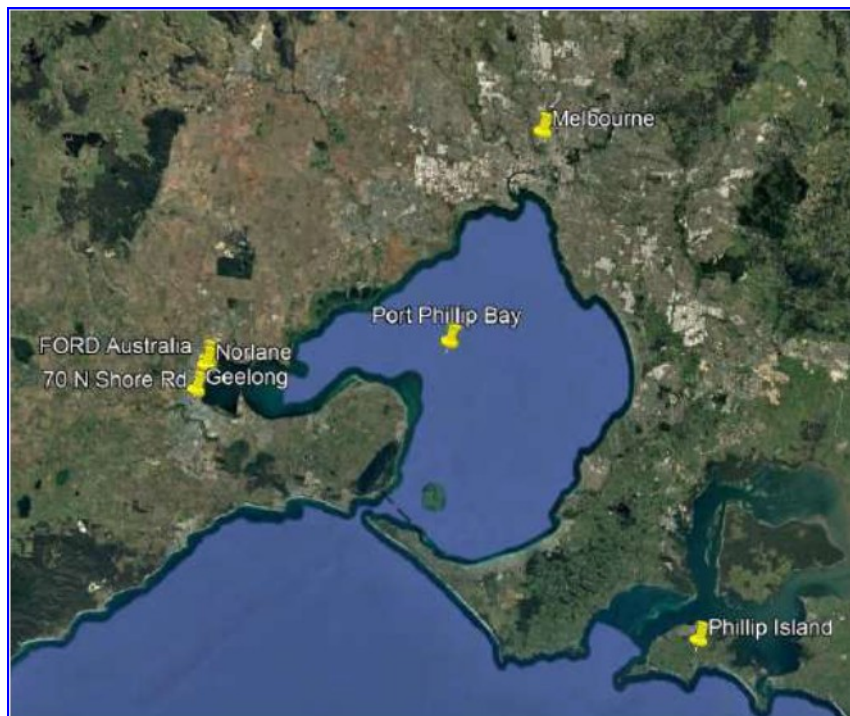

Ford Australia's first products were Model T cars assembled from complete knock-down (CKD)

Ford Model T parked outside the Geelong Library at its launch in Australia in 1915.
