President's Message

December, 2025

Hello PRMAC:

This coming meeting will be our last for the year. Our Christmas Party is the last function for the Club. I encourage all of you to renew your membership and sign up for the Christmas Party. So far reservations and renewals are pretty slow!

We had three Model A's and one panel truck turn out for the Templeton Founder's Day celebration. It was a very nice afternoon, weather wise and lots of people out enjoying all the Museum had to offer—especially the cake and pie! It was well planned and well attended.

Our new president, Silas Stanley, has informed us that "I was thinking about being president, but I am trying to move and I don't think I am well suited for that position at this time".

So we are again looking for another person for President for our club. Is there anyone out that is willing to step into the position? I find it to be the Presidential position is supported by many of the Club that step up and assist the President and are willing to assist in many of the details the President has. This is the reason we have a successful Model A Ford Club.

President Paul

We want to welcome new members, John and Julie Sartori. They live in Paso Robles and have a 1931 Pick-up. Those in the parade might remember John, he was on 17th Street behind the Model A's but had a different number. Welcome to the Paso Robles Model A Club, John and Julie.

After our meeting in October, we drove to Santa Margarita to The Porch for lunch. There were 12 members and Silas' friend, Jonah, who enjoyed a nice lunch and visiting time. It was a beautiful day for a drive down the back roads but most opted for the Freeway on the way home!

When you are dissatisfied and would like to go back to youth, think of Algebra!!

The Corvette got more attention than the Model A's did! New kid on the block. It's a very nice car. Thanks to Jim for bringing it.

The Barbershop Quartet and the American Legion members presented the flag while the Quartet sang the National Anthem, along with some attendees. Very nice Templeton Founders Day Celebration.

Dave used a building for shade while Paul used his hat with the large brim! Both of these guys are supposed to stay out of the sun as much as possible. They did a good job!

This lady was demonstrating a wringer washing machine. The little boy watching was in awe! Some of us remember those old wringer washers.

There were Model A's and Tractors from the J.B. Dewar Restoration program in front of the Museum and Blacksmith Shop. Model A's and a T were in front of the Templeton Deli. The idea was to spread the antique and classic cars around so people walking about could view them. Good turnout.

December Birthdays
